Professional Summary

Python Developer with experience in backend development, data analysis, and machine learning. Skilled in developing Python applications, building REST APIs, and working with SQL databases. Strong analytical and problem-solving abilities with experience collaborating in agile teams.

Technical Skills

- **Programming Languages:** Python, SQL, Java
 - **Frameworks:** Flask, Django
 - **Libraries:** Pandas, NumPy, Scikit-learn
 - **Databases:** MySQL
 - **Tools:** Git, GitHub
 - **Soft Skills:** Communication, Teamwork, Leadership, Problem Solving
-

Projects

1. **Customer Churn Prediction**
 - Built a machine learning model using Python and Scikit-learn.
 - Performed data cleaning using Pandas.
 - Visualised insights using Matplotlib.
 2. **Inventory Management System**
 - Developed a Flask application.
 - Designed a MySQL database.
 - Implemented CRUD operations.
-

Experience

Python Developer Intern | *ABC Technologies*

- Developed backend modules using Python.
 - Worked with SQL databases.
 - Performed data analysis using Pandas.
 - Participated in Agile development.
-

Education

B.Tech in Computer Science

XYZ University
